US Customs and Border Protection  
Student and Exchange Visitor Program

Re: International Student Travel during COVID-19 pandemic

To Whom It May Concern,

As part of their required clinical training, students enrolled in clinical internship courses at the University of Western States must return to the university to resume their Fall term education by October 4, 2021. Training will include the direct care of patients. The clinical internship is a critical, mandatory portion of the education of students in the Doctor of Chiropractic program.

Please contact me if further information is required.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Stanley C. Ewald'.
